

U.S. Department of Education
Information about your federal student loan

1/16/2014

Acct Number: 5154528646

Dear JAIME MALDONADO :

You may be able to reduce your income tax by deducting the interest you paid on your student loans during 2013.

Our records indicate that your reportable interest paid during 2013 is \$509.93 .

Because the amount of eligible payments made to MOHELA during 2013 was below \$600 you will not receive a 1098-E form.

Your loans were also serviced in 2013 by the **Direct Loan Servicing Center**. Reportable student loan interest paid to them should be available by January 31, 2014. If you paid \$600 or more in interest to the Direct Loan Servicing Center, you will be mailed a separate 1098-E. If you have a valid email address on file with MOHELA, we will also send an email in January 2014 with tax information, which includes your amount of interest paid to the Direct Loan Servicing Center.

The tax ID for your student loans owned by the U.S. Department of Education is **52-1198289**. Please consult a tax advisor regarding how to use this information.
